Daily activities include games, discussion groups, Bible studies and more.

Memory Care

Caring for those with dementia requires patience, compassion and special training. Our dementia specialist provides adapted programming that engages residents to meet their personal needs, incorporating daily music, adapted activities, crafts and games. Residents enjoy the comfort and privacy of their own rooms with individual temperature controls. Daily care includes three chef-prepared meals and snacks, medication management, assistance with activities of daily living, housekeeping, laundry and round-the-clock staffing.
